**COMMENTS**

Cathy and I have been working at the Torre Fuerte (Strong Tower) church plant since July of 2008. We became the lead pastor of the church in November 2008. The church was begun in 2006-07. Our responsibilities have been to give general leadership and oversight to the church plant as well as work on church organization, discipleship ministries and leadership training. Our hope has been to be able to turn the church over to a national pastor but as of now we are still working towards that goal. John has also been involved in teaching at the Alliance Seminary in Guadalajara as well as teacher/training of our national pastors in the state of Chiapas every 6 months. Our hope is to return to Guadalajara in 2012 to begin a new church plant in an area of the city where there currently are no evangelical churches.
